Price: \$0.00 CAD

Short Description

Whole Animal Rabbit Patties

Only sold in stores.

4 lb Bag 8 - 1/2 lb patties/bag
or **24 lb bulk boxes** 48 patties/box

Description

Finely ground whole rabbit carcass. Whole rabbit patties do not contain the head, feet, hide, large intestine (manure) or bladder. All the bones are grindable so bone content in rabbit is higher than patties made from larger animals (only a small percentage of bones in larger animals like goat, lamb, bison and beef are grindable). Organs make up approximately 8% of the patty - this includes lungs, liver, heart and kidneys. On average over all our proteins, patties are composed of 66% muscle meat, 7% bone, 10% organs, 7% blood and 10% fat. Other than the vegetables and fruit in our dinners we DO NOT add anything to our foods. You may supplement as needed. Please visit our website for healthcare and supplement products.

Both dogs and cats enjoy the delicate flavor of the Carnivora Whole Animal Rabbit. It is one of Nature's great food animals. Rabbits produce whitish meat that is fine-grained, high in protein, and can be substituted for poultry. Rabbit is lower in fat and therefore valuable for weight reduction or suitable for less active pets. It is a good alternative protein source for the allergy sensitive, pets, those

with heart disease or as part of variety in any dog or cat's weekly menu.
