

Beef Dinner

Price: \$0.00 CAD

Short Description

Beef with Vegetable 'n' Fruit

Only sold in stores.

4 lb Bag 8 - 1/2 lb patties/bag

25 lb Bulk Box 50 patties loose per box

Description

Finely ground whole beef carcass and a 5% veggie and fruit mix which includes finely ground romaine lettuce, bok choy, celery, carrots, apples, pears, blueberries...

Beef patties contain the whole animal except the heads, hides, bladder and large intestine (manure), hooves, horns (if any). We do not use non-edible bones as these would not be consumed in nature due to their density. Organs make up approximately 8 to 10 % of the patties - this includes lungs, liver, heart, kidneys and the tongue. Tripe is saved for our green tripe patties. On average over all our proteins, patties are composed of 66% muscle meat, 7% bone, 10% organs, 7% blood and 10% fat. Other than the vegetables and fruit in our dinners, we DO NOT add anything to our foods. You may supplement as needed. Please ask for a brochure or visit our website for healthcare and supplement products.

The Carnivora Whole Animal Beef is lower in protein than some of the other whole animal meats. Our pasture-raised beef is lower in polyunsaturated

omega-6 fatty acids and saturated fats than feedlot beef making it healthier. As it is lean, it is good food for less active pets, but still very valuable food for any carnivore. It is a rich source of iron and therefore a good food for building blood. Beef is a popular rotational food for those animals that do not have an intolerance to it.
