20 lb Case 10 - 2lb bags/case

Description

Please note that this is the only Pixie patty that is NOT a Whole Animal Diet. It does not contain bones or organs. It is designed as an alternative protein for occasional supplemental feeding to provide variety in your pet's diet.

Kangaroo meat is a truly organic nutrient-rich full flavored red meat that is high in omega-3 and has a dream fat/protein ratio – the fat percentage averages 2.62%. Kangaroo contains the highest levels of CLA (Conjugated Linoleic Acid) of any red meat. Kangaroo is an excellent choice for cats and dogs that have weight problems, allergies, digestive or skin issues.
